Anant Bhasin

SOFTWARE DEVELOPER

Experience

SDE Intern at Trell, Remote

AUGUST 2021 — DECEMBER 2021

Added new features, reduced API **p95** by ~2s, eliminated **race conditions**, integrated distributed **telemetry** and worked on new microservices with **Golang + SQL**. Implemented inter microservice communication with **gPRC**.

Analyst Intern at Goldman Sachs, Remote

JUNE 2021 — JULY 2021 | JAN 2022 - CURRENT

Worked on an internal workflow tool to add **predictive tooling** and increase the efficiency of internal flows. *Tech Stack: ReactJS for frontend; internal language, and framework for backend*

Google Summer of Code + Open Source at Rocket.Chat

JUNE 2021 — AUGUST 2021

Deploying End-to-End testing for the ReactNative application for Android.

Integrating said testing into the continuous integration pipeline with Github Actions and CircleCI.

Education

Bachelor of Technology, Shiv Nadar University, UP, India

JULY 2018 — JUNE 2022

Chairperson — ACM Student Chapter (CSE Department Society)

Hosted numerous coding workshops with cumulative attendance of 500+ students

CGPA: 7.1/10

Prominent Projects

Litico — Article Sharing Platform,

ReactJS | Express | MongoDB | Redis | Kafka | RaccoonJS | QuillJS

User Management, Rich Text Article Creation/Editing, and social features like comments/likes and **recommendations** to drive interactions for communities with **multiple content channels**. Deployed as **multiple coordinating microservices**. Public on **Github**.

Podfast.io — Podcast Platform

ReactJS | NodeJS | MongoDB | Redis | Flutter | SQLite

Lead a team of 3 developers. Audio Streaming, Recording, and Editing platform with community features.

Attention Span detection, Hackathon Project

TensorflowJS | Chrome Extension | Meteor.js | React | Mongo | WebAssembly

Smart India Hackathon 2020 Grand Finale Project

Browser-based real-time attention span measurement in online instructor-led sessions with **client-side machine-learning computation.**
